SOIL COMPACTOR
EU Stage IIIA / U.S. EPA Tier 3

EFFICIENT COMPACTION LEADER

Ammann continues to be the industry leader in compaction output while defining new highest standards in efficiency and cost saving through the ARS 200 Soil Compactor.

The machines meet EU Stage IIIA / U.S. EPA Tier 3 emissions standards. The machines also meet the highest operator standards, with intuitive control via a centralized multifunctional display built into the steering wheel. A wide range of compaction tools such as the ACE^{force} system help operators monitor indications of compaction.

APPLICATIONS

- Airports runways
- Industrial zones
- Dumpsite construction

PRODUCTIVITY

- High compaction output - faster compaction of thicker layers in fewer passes
- No-rear-axle concept – optimal stability and low center of gravity, which significantly improves safety on jobsites
- Variable range of vibration frequencies for added versatility
- ACE^{force} Intelligent Compaction tool for higher compaction efficiency

ERGONOMICS

- Spacious, quiet cab with integrated ROPS structure
- New multifunctional display for intuitive machine control and operation
- Excellent machine visibility with 360° view to machine edges and surroundings
- Innovative travel lever with speed adjustment and wider machine speed range (newly 5+1 speed instead of 3+1)

SERVICEABILITY

- All service points and engine compartment accessible from the ground
- Wide-opening rear hood for easy and fast daily maintenance
- Tiltable cab for exceptional access to main hydraulic components, which significantly reduces labour
- ECOdrop – machine efficiency and reductions in fuel consumption and required fluids
